Take 3 Steps to Simplify, Enhance and Add Value to Your Next Video Projector Installation

SP Controls Pixie Fixed Remote

- Provides a fixed, convenient and simple way to turn on, select source and control volume on your video projector
- Easy installation and setup
- Will control an infrared controlled screen from the same on/off control with an additional emitter module
- No more lost remote control or dead batteries
- \$203.00* for Pixie DCM

Rapid Run Cable

- Simplifies the installation using connectorized plates, runners and breakouts, significantly reducing installation time and hardware cost
- Available in 13 different connector configurations, with the option of CL2 or plenum cable runners
- \$99.00* for HD15 & 3.5mm wall plate and breakout fly leads, and 35' CL2 runner

Azden APS 25 Sound System

- Provides "Hi Fi" quality to the audio program and connects directly to the projector audio output
- Features docking for 2 optional UHF, VHF or infrared wireless microphones
- Full audio mixing, with a volume control on each input
- Comes complete with hardware for ceiling or wall mounting
- \$164.00* for APS 25
