

WIR RX15-2 Receiver: 2.3 MHz or 2.8 MHz

Instructions For Use & Care

SAFETY INFORMATION

Hearing Safety:

This product is designed to amplify sounds to a high volume level which could potentially cause hearing damage if used improperly. To protect your hearing and the hearing of others:

1. Make sure the volume is turned down before putting on the earphone or headphone before adjusting the volume to a comfortable level.
2. Set the volume level at the minimum setting that you need to hear.
3. Do not allow children or other unauthorized persons to have access to this product.

BATTERY SAFETY & DISPOSAL

Do not attempt to recharge disposable batteries, which may explode, release dangerous chemicals, cause burns, or other serious harm to the user or product.

PACEMAKER SAFETY

1. Before using this product with a pacemaker or other medical device, consult your physician or the manufacturer of your pacemaker or other medical device.
2. If you have a pacemaker or other medical device, make sure that you are using this product in accordance with safety guidelines established by your physician or the pacemaker manufacturer.

RECYCLING INSTRUCTIONS

Help Williams Sound protect the environment! Please take the time to dispose of your equipment properly.

Product Recycling:

Please do NOT dispose of your Williams Sound equipment in the household trash. Please take the equipment to a electronics recycling center; OR, return the product to the factory for proper disposal.

Battery Recycling:

Please do NOT dispose of used batteries in the household trash. Please take the batteries to a retail or community collection point for recycling.

APPROVALS

This product meets approval standards established for:

OPERATING INSTRUCTIONS

BATTERY INSTRUCTIONS

Two batteries (AAA Alkaline) must be placed into the battery compartment of the headphone, and ensure that the positive and negative terminal on the batteries are inserted correctly.

OPERATION INSTRUCTIONS

1. Slide the Power and channel switch of the headphone to the position A / B to power on the headphone. The Power and channel indicator turns red when the Power and channel switch slides to A and turns green when the Power and channel switch slides to B. You can enjoy different varieties of audio with different channel selections.
2. Adjust the volume of the headphone with the Volume control knob to desired listening level.
3. You can silence the audio to hear outside environment by holding the Monitor button continuously and releasing the Monitor button to continue listening to audio on selected channel.

If you experience difficulty with your system, call Toll-Free for Customer Assistance:

1-800-843-3544

If it is necessary to return the system for service, your Customer Service Representative will give you a Return Authorization Number (RA) and shipping instructions.

Pack the system carefully and send it to:

Williams Sound, LLC.
Attn: Repair Dept.
10300 Valley View Rd
Eden Prairie, MN 55344

4. Slide the Power switch of the headphone to position OFF to power off the headphone when it is not in use.
5. Connect audio source and Audio input jack of the headphone with audio connect line, the headphone is also used as regular wired stereo headphone without battery

SPECIAL FEATURES

1. The headphone has an auto mute function: When the IR transmitter turns off or the headphone does not receive the IR signal, the headphone automatically turns off its power amplifier and mutes.
2. The headphone has an auto power off function: After 3-5 minutes if the headphone does not receive the IR signal, the headphone will automatically turn off its power and the power indicator will turn off.
